

Stewart Ting Chong

Stewart Ting Chong hails from South Africa and is an accomplished business and IT professional with international exposure in the public and private sectors. He is PMP-certified, Lean Six Sigma Green Belt-trained with experience in the application of Scrum methodology in software development and certified as an Accountant for Closed Corporations. His diverse and cultural exposure is a result of having worked in South Africa, the US, Great Britain and Northern Ireland, Switzerland, Kenya, Botswana, Namibia, Mozambique, Tanzania, Lesotho and Swaziland. His work experience includes faith-based institutions, development agencies and software technology and manufacturing companies. Stewart is recognized for implementing one of the first electronic communication systems in Southern Africa and developed conflict resolution and mediation skills through his experience in pre-democratic South Africa while working for the Office of Archbishop Desmond Tutu.
